HOW TO CITE RULES AND RSMO

RULES
The rules are codified in the *Code of State Regulations* in this system–

Title	CSR	Division	Chapter	Rule
3	*Code of*	10-	4	115
Department	*State*	Agency	General area	Specific area
	Regulations	division	regulated	regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation; for example, 3 CSR 10-4.115, NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

EXECUTIVE ORDER
26-11

WHEREAS, I have been advised by the Department of Public Safety and the State Emergency Management Agency that preparation for operations staffing and asset staging will begin on April 13, 2026, for the 2026 FIFA World Cup that will take place from June 11, 2026, to July 19, 2026, spanning sixteen host cities across three North American countries with forty-eight teams competing, and Kansas City, Missouri will host six of these FIFA World Cup matches, including one quarterfinal. The event is expected to see over 650,000 visitors to the KC Metro area to include numerous Fan Fest celebrations and watch parties affecting Missouri counties outside of the KC Metro region. As a result, local resources may be significantly strained, particularly regarding public safety, security, transportation, and other essential infrastructure. Missouri's State Emergency Operations Center (SEOC) will need to be activated to provide situational awareness for elected officials, facilitate communication with federal agencies and other states, and coordinate resource support for affected communities throughout the State of Missouri; and

WHEREAS, interruptions of public services are occurring, or anticipated to occur, as a result of the 2026 FIFA World Cup event starting on April 13, 2026, and continuing; and

WHEREAS, the 2026 FIFA World Cup event beginning on April 13, 2026, and continuing, have the potential to create a condition of distress and hazard to the safety, welfare, and property of the people of the State of Missouri beyond the capabilities of some local jurisdictions and other established agencies; and

WHEREAS, the State of Missouri will continue to be proactive where the health and safety of the people of Missouri and visitors are concerned; and

WHEREAS, the resources of the State of Missouri may be needed to assist affected jurisdictions and to help relieve the condition of distress and hazard to the safety and welfare of our fellow Missourians and visitors; and

WHEREAS, protection of the safety and welfare of the people of Missouri through assistance under the Emergency Mutual Aid Compact (EMAC) requires an invocation of the provisions of Sections 44.415 RSMo, 44.032 RSMo, 44.090 RSMo, and 44.091 RSMo; and

WHEREAS, invoking the provisions of Sections 44.100 and 44.110, RSMo, is required to ensure the protection of the safety and welfare of the people of Missouri.

NOW, THEREFORE, I, MIKE KEHOE, GOVERNOR OF THE STATE OF MISSOURI, by virtue of the authority vested in me by the Constitution and the laws of the State of Missouri, including sections 44.100 and 44.110, RSMo, do hereby declare that a State of Emergency exists in the State of Missouri and direct the Missouri State Emergency Operations Plan be activated.

I further authorize and direct state agencies to provide assistance as needed.

This Order shall terminate on July 31, 2026, unless extended in whole or in part.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Missouri, in the City of Jefferson, on this 13th day of April, 2026.

ATTEST:

DENNY L. HOSKINS
SECRETARY OF STATE

The text of proposed rules and changes will appear under this heading. A notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This explanation is set out in the PURPOSE section of each rule. A citation of the legal authority to make rules is also required, and appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules that are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register.* If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close-of-comments date will be used as the beginning day in the ninety- (90-) day count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice, file a new notice of proposed rulemaking, and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:
Boldface text indicates new matter.
[Bracketed text indicates matter being deleted.]

TITLE 13 – DEPARTMENT OF SOCIAL SERVICES
Division 70 – MO HealthNet Division
Chapter 45 – Hearing Aid Program

PROPOSED AMENDMENT

13 CSR 70-45.010 Hearing Aid Program. The division is amending sections (1)–(4) and (6).

PURPOSE: This amendment updates language to include hearing aids and related services for all eligible participants, removes language for certain categories of assistance, adds language to define "physician," and removes the website address for material incorporated by reference.

(1) Administration. The Hearing Aid Program shall be administered by the Department of Social Services, MO HealthNet Division. The services and items covered and not covered, the program limitations, and the maximum allowable fees for all covered services shall be determined by the Department of Social Services, MO HealthNet Division through th**e** *[hearing aid manual]* ***Hearing Aid Manual*****,** which is incorporated by reference and made a part of this rule, as published by the Department of Social Services, MO HealthNet Division, 615 Howerton Court, Jefferson City, MO 65109, *[at its website at dss.mo.gov/mhd, May 13, 2020]* **revised December 23, 2025**. This rule does not incorporate any subsequent amendments or additions.

(2) Participants Eligible. The MO HealthNet Program pays for approved *[MO HealthNet services for]* hearing aid**s and related** services when *[furnished]* **provided** within the provider's scope of practice to MO HealthNet eligible participants *[under the age of 21 or participants receiving MO HealthNet under a category of assistance for pregnant women, blind participants, or skilled nursing facility residents]*. The participant must be eligible on the date the service is *[furnished]* **provided**. Participants may have specific limitations for hearing aid services according to the type of assistance for which they have been determined eligible. It is the provider's responsibility to determine the coverage benefits for a participant based on their type of assistance as outlined in the *[provider program manual]* ***Hearing Aid Manual***. The provider *[shall]* **must** ascertain the patient's MO HealthNet and managed care or other lock-in status before any service is performed. The participant's eligibility *[shall]* **must** be verified in accordance with methodology outlined in the *[hearing aid manual]* ***Hearing Aid Manual***.

(3) Prior Authorization of Hearing Aids. All hearing aids and related services require prior authorization with the exception of hearing evaluation for the purpose of prescribing a hearing aid, post-fitting evaluations, post-fitting adjustments, repairs to hearing aids no longer under warranty, and special tests for ruling out retrocochlear involvement. All hearing aid**s** *[program]* **and related** services provided to participants in nursing facilities require prior authorization.

(4) Hearing Evaluation Requirements. A hearing evaluation for the purpose of obtaining a hearing aid must be performed by an audiologist, hearing instrument specialist, or physician *[(MD or DO)]* **(a duly licensed Doctor of Medicine (MD) or Doctor of Osteopathy (DO) licensed in accordance with the licensing provisions of the state in which s/he practices), of which all must have a current MO HealthNet participation agreement and provider number,** prior to the submission of a Prior Authorization Request form. This testing, when administered for the purpose of prescribing a hearing aid, will be reimbursed by the MO HealthNet *[p]***P**rogram. Testing performed in relation to a medical or surgical diagnosis or treatment for hearing deficits or related medical problems for purposes other than determining the need for a hearing aid is a noncovered service and is not reimbursable by the MO HealthNet Hearing Aid Program. The hearing evaluation performed for the purpose of obtaining a hearing aid must include, at a minimum, air conduction thresholds, bone conduction thresholds (with masking when necessary), speech reception thresholds, and speech discrimination scores. The results obtained from these basic hearing tests must be clear and internally consistent, and must demonstrate that a hearing aid is needed, that it will benefit the participant and will support the recommendation of which ear is to be fitted. Testing must be provided in accordance with sound professional practice and the standards under which the provider is licensed.

(6) Medical Ear Examination Requirements. The participant must receive a medical ear examination for pathology or disease by a physician *[licensed as an]* (MD or DO). The medical ear examination must be performed within six (6) months prior to the date a hearing aid is dispensed.

TITLE 20 – DEPARTMENT OF COMMERCE AND INSURANCE
Division 4240 – Public Service Commission
Chapter 10 – Utilities

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission under section 386.250, RSMo 2016, and section 393.320, RSMo Supp. 2025, the commission adopts a rule as follows:

20 CSR 4240-10.195 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on December 1, 2025 (50 MoReg 1765-1767). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The public comment period ended December 31, 2025, and the commission held a public hearing on the proposed rule on January 7, 2026, and held the hearing record open for the submission of additional comments until January 8, 2026. The commission received timely written comments from three (3) people representing three (3) entities during the comment period and three (3) people representing three (3) entities provided comments at the hearing. The comments were generally in support of the proposed rule with several suggested changes.

COMMENT #1: Scott Stacey, Deputy Counsel of Staff Counsel's Office, on behalf of the Missouri Public Service Commission Staff (staff) commented in support of the rule. Mr. Stacey referred to staff's written comments, which included responses on December 30, 2025, January 7, 2026, and January 8, 2026. Present with Mr. Stacey was Curtis Gateley and Michael Abbott of staff. Staff stated it was in support of the proposed rule and it was either opposed or not opposed to various comments as stated in staff's filed responses. Staff's positions will be addressed under each commentors comments listed below.
RESPONSE: The commission thanks its staff for its work on this proposed rule. The commission agrees with staff's comments and will accept some of the changes suggested by the Office of the Public Counsel (OPC) and Missouri-American Water Company (MAWC) as indicated more specifically in the responses to comments below.

COMMENT #2: Lindsay VanGerpen, Senior Counsel, on behalf of OPC, submitted written comments and provided comments as part of the hearing record. During the hearing, OPC indicated it had thirteen (13) proposed modifications to the proposed rule and suggested nine (9) further modifications to the proposed rule based on comments from staff and MAWC. OPC's thirteen (13) suggested modifications to the proposed rule included adding a new section (1) establishing a process for the commission to appoint an appraiser; adding a reference to engineering reports or evaluations in section (1) as published; clarifying subsection (1)(A) regarding appraiser or consulting engineer independence requirements; amending when information that is not publicly available but is relied on must be provided in subsection (1)(E) as published; moving paragraph (2)(M)4. to become a subsection under section (1); adding a provision requiring that an application include a statement concerning the receipt of a corrected appraisal report in section (2) as published; clarifying who determines whether upgrades or new construction is necessary in subsection (2)(L) as published; clarifying the requirement to include the appraisal with the application and add a requirement regarding the appraiser's possible non-participation in subsection (2)(M) as published; adding language recognizing that the commission may also have appointed an appraiser and utilizing the defined terms from the appraisal statute in paragraph (2)(M)1. as published; striking paragraph (2)(M)2.; moving paragraph (2)(M)4. as published to a new subsection in section (2) as published; clarifying that the appraisal must be completed in accordance with Missouri law and the most recent version of the Uniform Standard of Professional Appraisal Practice (USPAP) and that a fair market value determination does not determine whether the acquisition is in the public interest in paragraph (2)(M)5. as published; and reducing the amount of time for staff to complete its review if the appraised value of the acquisition is less than $5,000,000 and shortening the data request response time in such a circumstance to allow time for the commission to resolve a contested case in section (3) as published.
RESPONSE AND EXPLANATION OF CHANGE: The commission thanks OPC for its comments and participation in the hearing. With modifications, the commission will accept some of OPC's suggested rule changes that were presented in its written comments and at the hearing. Several of OPC's written comments presented at hearing include edits suggested by other stakeholders, as well. The accepted changes will be addressed more fully below.

COMMENT #3: Jennifer Coleman, Counsel, on behalf of MAWC, submitted written comments and provided comments at the hearing. In its written comments and at the hearing,

MAWC presented seven (7) proposed modifications to the rule as published along with additional comments regarding OPC's proposed modifications. MAWC submitted follow-up comments after the hearing that were incorporated into the hearing record and will be addressed further below. MAWC's seven (7) suggested modifications to the proposed rule include defining "creditor" for purposes of subsection (1)(A), specifically to recognize that invoices paid within agreed terms would not disqualify an entity from serving as an appraiser or consulting engineer; clarifying subsection (1)(A) to indicate that ownership of shares through a broadly diversified investment vehicle, such as a mutual fund, index fund, or similar pooled investment, does not constitute a "material interest," provided the appraiser has no control over the fund's investment decisions; encouraging the commission to specify or clarify the terms "detailed and/or itemized information" it seeks for the supporting rationale under subsection (1)(D); relocating subsection (2)(M) as subsection (1)(F), as it is directly applicable to the appraisal to be conducted; adopting a process requiring the commission to notify large water utilities when it intends to appoint an appraiser; modifying section (2) to remove "shall" and add "if available"; and modifying subsection (2)(K) to replace "shall" with "may." Staff responded to these comments as part of the hearing record.

RESPONSE AND EXPLANATION OF CHANGE: The commission thanks MAWC for its comments and participation in the hearing. The commission will accept some of MAWC's suggested rule changes that were presented in its written comments and at the hearing. Several of MAWC's written comments presented at hearing include edits suggested by other stakeholders, as well. The accepted changes will be addressed more fully below. The commission will also make any renumbering or organizational changes needed in relation to these changes.

COMMENT #4: OPC proposed adding a new section (1) establishing a process for the commission to appoint an appraiser. At the hearing, OPC included a further modification as suggested by MAWC. Staff commented that the rule remains silent in order to provide flexibility to the commission. Staff further commented that it was opposed to this additional requirement as there is nothing preventing a large water utility from filing a notice with the commission regarding a potential appraisal and potential subsequent acquisition of a small water utility. It is important to recognize that not all appraisals conducted by large water utilities result in acquisitions; the large water utility may ultimately decide not to pursue the acquisition for its own reasons. Therefore, requiring the commission to make a determination prior to the utility seeking an acquisition is premature, as there is no assurance that the acquisition will occur.

RESPONSE: The commission agrees with staff's comments in regard to OPC's proposed change and will not change or modify this portion of the rule. No changes were made as a result of these comments.

COMMENT #5: OPC proposed adding a reference to engineering reports or evaluations in published section (1). Staff commented that it is not opposed to this modification as the rule as published references an appraiser or consulting engineer under subsection (1)(A).

RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with OPC's and staff's comments and will modify the language in section (1) to add engineering reports or evaluations.

COMMENT #6: OPC proposed clarifying subsection (1)(A) regarding appraiser or consulting engineer independence requirements. OPC recommended inserting the phrases "associated with" and "including, but not limited to, being a creditor, equity security holder, or a shareholder," for clarification. Staff commented that it was not opposed to OPC's language modifications to subsection (1)(A).

RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with OPC's and staff's comments and will modify the language in subsection (1)(A) as suggested.

COMMENT #7: OPC proposed amending subsection (1)(E) as published regarding when information that is not publicly available but is relied on must be provided. Staff commented that it was not opposed to the modification.

RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with OPC's and staff's comments and will modify the language in subsection (1)(E) as suggested.

COMMENT #8: OPC proposed making section (4) as published a new subsection under section (1) as published with some modifications. Staff commented that it was not opposed to moving section (4) as published to new subsection (1)(F) and to the language modification as long as the rule requires that all documents, evaluations, or reports prepared by, or under the direct supervision of, a registered professional engineer be signed, sealed, and dated by a professional engineer licensed in the state of Missouri. In comments submitted into the hearing record, OPC suggested rewording new subsection (1)(F) to address staff's concerns. Staff was satisfied with these changes.

RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with OPC's and staff's comments and will modify the language in section (4) as suggested by OPC and modified by staff. The commission will also move modified section (4) to new subsection (1)(F) and renumber the remaining sections accordingly.

COMMENT #9: OPC proposed adding a provision requiring that an application include a statement concerning the receipt of a corrected appraisal report (a new provision in section (2) as published). Staff commented that it was not opposed to the modification as long as it is within section (2) and not within a new section (3).

RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with OPC's and staff's comments and will add the language in a new subsection (2)(C) as suggested by OPC and modified by staff. The commission will also renumber the remaining subsections in section (2).

COMMENT #10: OPC proposed clarifying who determines whether upgrades or new construction is necessary in subsection (2)(L) as published. Staff commented that it does not agree with this modification to the draft standard. As noted, the proposed rule at paragraph (2)(L)2. as published requires the large utility to provide a description of why the upgrade or new construction is necessary. Additionally, the rule, as drafted, does not remove the commission from making determinations regarding whether upgrades and/or new construction will be included.

RESPONSE: The commission agrees with staff that no modifications are needed. No changes were made as a result of this comment.

COMMENT #11: OPC proposed clarifying the requirement to include the appraisal with the application and proposed

adding a requirement regarding an appraiser's possible non-participation in subsection (2)(M) as published. Staff commented that it was not opposed to these modifications.
RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with OPC's and staff's comments and will add the language in renumbered subsection (2)(N) as suggested by OPC and modified by staff.

COMMENT #12: OPC proposed adding language recognizing that the commission may also have appointed an appraiser and utilizing the defined terms from the appraisal statute in paragraph (2)(M)1. as published. Staff commented that it was not opposed to the modification of adding the term "water" to clarify the provision applies to large water public utilities and small water utilities as proposed by OPC; however, staff is opposed to OPC's addition regarding the commission determination to appoint an appraiser. Staff recommended the rule remain silent regarding the potential appraiser appointed by the commission to provide flexibility to the commission.
RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with OPC and staff regarding adding water to renumbered paragraph (2)(N)1. The commission agrees with staff's position regarding the additional language offered by OPC and will not accept such change.

COMMENT #13: OPC proposed striking paragraph (2)(M)2. Staff commented that it was not opposed to the modification.
RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with OPC's and staff's comments and will remove paragraph (2)(M)2. as published and renumber the remaining paragraphs as needed.

COMMENT #14: OPC proposed moving paragraph (2)(M)4. as published to new subsection (2)(O). Staff commented that it was not opposed to the modification.
RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with OPC's and staff's comments and will move paragraph (2)(M)4. as published to new subsection (2)(O) and renumber the remaining paragraph in that subsection.

COMMENT #15: OPC proposed clarifying paragraph (2)(M)5. that the appraisal must be completed in accordance with Missouri law and the most recent version of the USPAP and that a fair market value determination does not determine whether the acquisition is in the public interest. Staff commented that if the USPAP is included in the regulation, the regulation would have to include a specific version and date of the USPAP, and all appraisers would be required to use that version regardless of future reforms and developments so long as this regulation remained in effect and was not amended. Staff suggested the USPAP language remain in statute and not within the regulation. OPC later commented that it withdraws its request to add the USPAP to the rule. Staff also disagreed with OPC that the deleted language transfers responsibility, as it remains the applicant's responsibility to prove its case, including providing evidence that the acquisition is in the public interest. However, staff did not oppose deleting this language to eliminate any concern. Staff is opposed to OPC's suggested additional language.
RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with staff's comments and will not add the additional language proposed by OPC. The commission will also strike "showing that the acquisition is in the public interest, which" from the rule in renumbered paragraph (2)(N)3.

COMMENT #16: In written comments during the comment period and as part of the hearing record, OPC proposed reducing the amount of time for staff to complete its review if the appraised value of the acquisition is less than $5,000,000 and shortening the data request response time in such a circumstance, to allow time for the commission to resolve a contested case in section (3) as published. Staff commented that it is opposed to this modification. Staff instead recommended deletion of section (4) to provide flexibility to the commission. Or in the alternative, keep the staff recommendation at one hundred twenty (120) days and remove the thirty- (30-) day extension. Staff did not oppose the addition of subsection (4)(A).
RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with OPC's addition of subsection (4)(A) but disagrees with OPC's modification of the time frame. The commission will remove the thirty- (30-) day extension language as proposed by staff.

COMMENT #17: During the hearing, OPC indicated it had nine (9) further modifications to the proposed rule based on comments from staff and MAWC. OPC's nine (9) additional modifications to the proposed rule include establishing a process for the commission to appoint an appraiser, with modification suggested by MAWC (new section (1)); including a definition of "creditor" and including a provision about the ownership of shares through certain investment vehicles in response to MAWC's proposals in subsection (1)(A) as published; rewording proposed subsection (1)(F), which was moved from section (4) as published; moving the provisions of subsection (2)(M) as published to subsection (2)(G); opposing MAWC's suggested revision to section (2) as published that would require the applicant to only file information "if available"; opposing MAWC's suggested revision to subsection (2)(K) as published that would no longer require the engineering evaluation to include certain information, but only that it "may" do so; clarifying who determines whether upgrades or new construction is necessary in subsection (2)(L) as published; striking language "for the small water utility" in subsection (2)(O); and maintaining the OPC proposal regarding staff's recommendation in cases where the appraised value is $5,000,000 or less in section (5) as published.
RESPONSE AND EXPLANATION OF CHANGE: The commission will accept some of OPC's suggested rule changes that were presented in its written comments and at the hearing. Several of OPC's written comments presented at hearing include edits suggested by other stakeholders, as well. The accepted changes will be addressed more fully below but will also include the renumbering and reorganization of provisions as needed.

COMMENT #18: OPC responded to MAWC's proposals to include a definition of "creditor" and to include a provision about the ownership of shares through certain investment vehicles in subsection (1)(A) as published. Staff recommended rejecting this addition as unnecessary. Staff commented that it is unaware of a case before the commission where defining a creditor has been raised or been a contested issue. Because such a definition would be applicable to most cases before the commission, if a definition becomes necessary staff suggests it appear in statute. Staff does not agree with MAWC's proposal because the term "disinterested person" is established in section 393.320.3.(1), RSMo. Efforts to redefine this term would be best accomplished through a statutory change. Staff commented that it agreed with OPC's change in Comment #6 above, but not to the additional changes as set out in this comment.
RESPONSE: The commission agrees with staff and will not

modify the language any further than suggested in Comment #6 above.

COMMENT #19: MAWC proposed relocating section (4) to subsection (1)(F), as it is directly applicable to the appraisal to be conducted. OPC also suggested it does not generally oppose MAWC's request to move provisions of section (4) to a new subsection; however, OPC suggested the requirement to include the appraisal and the requirement that the application identify whether one appraiser did not participate in the appraisal remain as section (3). OPC also suggested a slight revision to the leading sentence of subsection (2)(G) for clarity. OPC further suggested subparagraph (2)(G)3.C. remain a separate provision. As previously stated, staff commented that it was not opposed to the modification moving section (4) to subsection (1)(F). Staff commented that it disagreed with moving subsection (2)(G), due to its opposition to creating a new section (1).
RESPONSE AND EXPLANATION OF CHANGE: The commission agrees with staff's recommendations and will move the language to new subsection (1)(F) as previously stated above. No other changes, other than renumbering and organizational changes, were made as a result of these comments.

COMMENT #20: MAWC proposed section (2) of the proposed rule be modified to remove "shall" and add "if available." OPC opposed MAWC's suggested revision to section (2) as published that would require the applicant to only file information "if available." Staff is opposed to MAWC's proposed modification to section (2) of this rule. Staff commented that the draft rule's proposed minimum standards are based on staff's experience with managing and processing acquisition and appraisal cases. Additionally, MAWC's proposal is unnecessary given section (6) as published establishes that the commission may grant a variance from specific portions of this rule for good cause.
RESPONSE: The commission agrees with staff that the proposed modification by MAWC should not be accepted. No changes were made as a result of these comments.

COMMENT #21: OPC opposes MAWC's suggested revision to subsection (2)(K) that would no longer require the engineering evaluation to include certain information, but only that it may do so. Staff commented that it is opposed to MAWC's proposed modification to section (2) of this rule. Staff stated that the draft rule's proposed minimum standards are based on staff's experience with managing and processing acquisition and appraisal cases. Additionally, MAWC's proposal is unnecessary given section (6) establishes that the commission may grant a variance from specific portions of this rule for good cause.
RESPONSE: The commission agrees that the proposed modification by MAWC should not be accepted. No changes were made as a result of these comments.

COMMENT #22: OPC proposed striking the language "for the small water utility" in new subsection (2)(O). Staff commented that it opposed the modification.
RESPONSE: The commission agrees with staff that no modifications are needed. No changes were made as a result of this comment.

COMMENT #23: MAWC proposed defining "creditor" for purposes of subsection (1)(A), specifically to recognize that invoices paid within agreed terms would not disqualify an entity from serving as an appraiser or consulting engineer. Staff recommended rejecting this addition as unnecessary. Staff commented that it is unaware of a case before the commission where defining a creditor has been raised or been a contested issue. Staff also commented that because such a definition would be applicable to most cases before the commission, if a definition becomes necessary staff suggests it appears in statute.
RESPONSE: The commission agrees with staff that no modifications are needed. No changes were made as a result of this comment.

COMMENT #24: MAWC strongly urged the commission to adopt a process requiring the commission to notify large water utilities when the commission intends to appoint an appraiser. This notification and commission response would need to occur prior to the filing of the application referenced in section (2), and many times would take place prior to the execution of an agreement or prior to the matter becoming public. MAWC proposed language for this process to be incorporated under subsection (1)(G). MAWC also recommended the commission submit this notification to a utility no later than thirty (30) days after the utility submits a confidential letter of notice to the commission's general counsel's office. Staff recommended the rule remain silent in order to provide flexibility to the commission. Staff opposed the additional requirement as there is nothing preventing a large water utility from filing a notice with the commission regarding a potential appraisal and potentially subsequent acquisition of a small water utility. Staff commented that it is important to recognize not all appraisals conducted by large water utilities result in acquisitions as the large water utility may ultimately decide not to pursue the acquisition for its own reasons. Therefore, requiring the commission to make a determination prior to the utility seeking an acquisition is premature.
RESPONSE: The commission agrees with staff that no modifications are needed. No changes were made as a result of this comment.

COMMENT #25: MAWC proposed subsection (2)(K) be modified to replace "shall" with "may." Staff stated its opposition to this proposed modification. Staff state that the proposed minimum standards in the draft rule are based on staff's experience with managing and processing acquisition and appraisal cases. Additionally, staff stated that MAWC's proposal is unnecessary given section (6) as proposed establishes that the commission may grant a variance from specific portions of this rule for good cause.
RESPONSE: The commission agrees with staff that no modifications are needed. No change was made as a result of this comment.

COMMENT #26: MAWC submitted additional written comments as part of the hearing record, including that MAWC believes it is essential for the commission to establish a clear process for appointing an appraiser, and for the commission to make it known that it has chosen to not appoint its own appraiser. MAWC supported OPC's proposed language regarding the commission's appointment of an appraiser with minor edits and the addition of a sentence requiring the commission appointment to be completed within seventy-five (75) days after receipt of the large water public utility's notice. Staff commented in response that it recommended the rule remain silent in order to provide flexibility to the commission and because the acquisition may not ultimately take place making the appraiser selection premature. Staff further commented that it was opposed to this additional requirement as there is no prohibition preventing a large water utility from filing a

notice with the commission regarding a potential appraisal and subsequent acquisition of a small water utility.
RESPONSE: The commission agrees with staff's comments in regard to OPC's and MAWC's proposed changes and will not change or modify this portion of the rule. No changes were made as a result of these comments.

COMMENT #27: MAWC submitted additional comments as part of the hearing record. MAWC proposed language to clarify the eligibility of appraisers participating in this process. MAWC proposed clarifications regarding the meaning of "creditor" and "shareholder." MAWC indicated that the rule without these definitions is too vague and too broad, that it will, in effect, restrict the number of appraisers available, and it may eliminate all appraisers from eligibility. MAWC opposed OPC's addition of "associated with" to subsection (1)(A), stating that it believed this addition would further cloud the eligibility of potential appraisers and should not be added to the rule. MAWC stated that without definition, the terms would be subject to a wide range of possible disqualifications, from the obvious (officers, directors, and employees of one of the utilities) to the less obvious (a person previously hired for an appraisal by one of the utilities). MAWC agreed with OPC's proposal to include in subsection (1)(A) a reference to the USPAP which includes an ethics rule allowing the appraisal community to police that industry and not place additional undefined conditions on the employment of appraisers. Staff stated that it does not oppose adding "associated with" as suggested by OPC and discussed previously above but is opposed to MAWC's suggested changes.
RESPONSE: The commission agrees with staff and disagrees with the proposed changes as suggested by MAWC. Therefore, no additional changes were made as a result of these comments.
